Date: 08 September 2008</p> <p>"This machine is the ultimate machine, before I bought this I was looking around for a PC for months because I wanted the best one. The I found this, not only does it look AMAZING but its specification is unreal and performance wise is very very fast.</p> <p>From a gamers point of view I would say its the next generation to computing as it gives a professional look and exceeds expectations.</p> <p>Looking for a PC? Then look no further because here is the best pc I would more then happily recommend."</p> <p>32 of 41 people found this review helpful.</p> <p>Was this review helpful to you? <p>Overall: ★★★★★☆</p> <p>Bob</p> <p>Gender: Male Age: 40-54 Computer proficiency: Intermediate</p>	<p>Excellent pc after initial disappointment Date: 29 August 2008</p> <p>"My new pc failed to power up after taking delivery of a new purchase from PCWorld.(power light switch was 'on' but just a blank black screen). PCWorld tech heads confirmed there was a problem and my new purchase was exchanged. Impressed with PCWorld's customer service.</p> <p>Since then everything has been fine. A few hiccups transferring stuff from my old pc.(MS Easy transfer using a WD external drive did not work. ended up doing the job manually). Also my Memeo backup s/w does not run on a 64bit machine, confirmed by Memeo helpdesk.</p> <p>Needless to say this is a cracking piece of kit . In particular the Touchsmart s/w using icons. I was mostly impressed with the TV digital tuner - it's better than my normal TV especially the EPG !! I look forward to enjoying my time with this pc and my wife too who starts her college studies that requires much photographic & graphics work."</p> <p>51 of 51 people found this review helpful.</p> <p>Was this review helpful to you?
